

SMART FURNITURE®

Smart Furniture® allows you to easily design your own no-tools, custom shelves and organizers to fit your unique needs. This patented, building block-like system consists of durable, attractive components that can be stacked and connected infinitely to enable maximum space utilization. Quick and convenient to assemble (no nails, glue, hinges, screws or tools necessary), virtually anyone can configure and, when your needs change, re-configure Smart Furniture®. Whether for your home, office, retail space, or tradeshow exhibit, Smart Furniture® is beautiful, flexible, and affordable.

CUSTOMER COMMENTS

HOME

“The Smart Furniture® bookcases I purchased are just possibly the best thing I have ever bought for my home. They add so much to my living room – just the touch I was looking for. This is the best idea I have ever seen!! Your personal interest in my order was also outstanding. Be assured that ALL of my friends are hearing about SmartFurniture.com.”

-Homeowner (Minnesota)

OFFICE

“Very pleased with the prompt delivery - received within 5 days of placing the order, in comparison to other companies with waits up to 30 days. Assembled so quickly and easily - just as advertised. Great quality and appreciated the ability to customize to meet our needs at a reasonable price. Would highly recommend your company for its customer service and quality.”

-Registered Nurse (Missouri)

RETAIL SPACE

“What a pleasure it has been working with your company over the past year... Your product is an absolutely perfect fit for our retail merchandising units. The colors perfectly match and the ease of assembly has been a key factor in making your product work for us. Our retailers have been very pleased with the ability of your product to display merchandise professionally.”

*-Marketing Director
Northgate Mall (Tennessee)*

TRADESHOW

“Smart Furniture® is so far superior to anything else we've found. This is great for tradeshows. The slickest, sturdiest product we've found. Every thing is milled so well that all you have to do is line up one dowel hole, and all the rest just falls into place. It's just incredible. It was much less expensive for our store than any other solution we looked at. We just love it.”

-Retailer (California)

Get Smart.™

GET SMART FURNITURE

Smart Furniture® components are made from a material chosen for its strength, durability and contemporary style – high-end melamine laminate. Each component is individually inspected to ensure quality. The standard components are 9-1/2" deep and come in one foot, two feet, and three feet lengths. They can be quickly, easily (remember – no-tools needed), and securely assembled. This innovative, patented system allows you to connect and stack the components infinitely, to achieve YOUR perfect, custom configuration. And, they can be disassembled just as easily – for portability or if you ever want to re-configure your shelving unit. For more design options, two feet deep components are also available.

DESIGN YOUR OWN, OR...

With just a few clicks anyone can quickly design Smart Furniture® using the easy, interactive **Online Design Tool** at www.smartfurniture.com. If you prefer, contact Smart Furniture® for friendly, complimentary design assistance. Or, choose from dozens of pre-configured units Smart Furniture® has made available for your convenience.
