

Tools Needed:

pencil, level, phillips screwdriver, 3/8" drill bit, drill

Mounting Instructions:

1) Determine the location of the shelf on your wall. To insure proper installation it is important to choose the correct fastener for your wall type (wood masonry, drywall). If possible, try to locate wall studs. See illustration below.

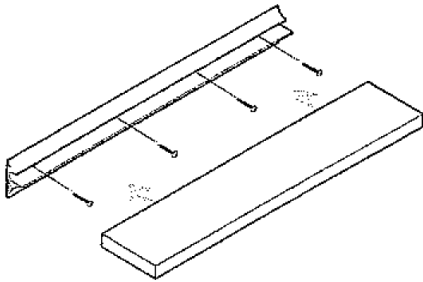

2) While holding shelf support against the wall, place a level on top of the shelf support. Level the support and mark holes on the wall with a pencil. (Fig. 1)

3) After determining the proper wall fasteners, hold the shelf support against the wall and fasten with mounting hardware provided. (Fig.2)

*DISCLAIMER: CAUTION

Install Amore® shelf and shelving units according to instructions provided. LTL Home Products, Inc. and its related companies are not responsible for injury or damage resulting from incorrect installation or use. Amore® products are for use only as shelves and shelving units and are not intended for any other purposes.

Preparing and Inserting Glass Shelf:

1) Remove paper from one side of the pre-cut shelf. Tape and place the sticky side of the tape on to the back edge (top surface) of the glass shelf. (Fig. 3)

2) Remove the paper from the other side of the double sided tape.

3) With the shelf support mounted to the wall, hold the glass shelf at a 15 degree upward angle and insert the glass shelf into the shelf support bracket groove. (Fig.4)

4) Immediately tilt the glass shelf downward to a level position so that the tape adheres to the top of the shelf support bracket. (Fig. 5)
